A Work-House Sensation. Alderman Ford, of Kansas City, reported a few days ago that he intended to introduce into the upper house of the Common Council a resolution providing for the appointment of a com-mittee to investigate certain charges he will make against the city work-house. Mr. Ford alleges that the horrors of Silieria are not greater than those en-dured by the prisoners of the local work-house. An investigation proved that his statements were in a measure true. Four and five men are crowded at night into one little cell, recking with filth and alive with vermin. The prisoners are shackled day and night, and all in all their sufferings and discomforts are very great. The introduc-tion of Mr. Ford's resolution was expected to create something of a sensa-

Senator Evarts got off a good thing on a gentleman at a party in Washing-ton about distinguishing between a canvas-back and a red-head. "An infallible test," he remarked, "is in the length of the bill." Just here he was completely broken up by a lady who leaned forward and interjected, "But Senator, I never serve either canvas-backs or red-heads at my table with bills."

My stomach and one-half miles long.

My stomach and digestive organs were in a chronic state of disorder and my liver and howels so torpid at times that I had to resort to the most drastic cathartics, which would always leave me in a delicate condition. I suffered from general debility and my whole system became deranged. Sick headaches and violent cramps in my stomach were common, as also frequent skin cruptions, and no woman suffered from the weaknesses of our sex as I did. I was under treatment of several physicians and also used a much advertised sarsaparilla without the least apparent relief, but instead my health became worse. I reluctantly consented to try Bull's Sarsaparilla. The first dose convinced me it was stronger than ally other and I felt a warmth through my whole system. Before I had finished the first bottle I began to improve. I have only taken five bottles, and now my appetite is splendid, my bowels regular, and my digestion as good as it ever was. My headache and other troubles have ceased and I am better than I have been for ten years.—Ann. L. Cooke, Mt. Verson, Ind.
